The Annals of
Regional Science
© Springer-Verlag 1996

Contents of Volume 30

Bailly AS, Coffey WJ, Gibson LJ: Regional science: back to the future? 153

Batabyal AA: Game models of environmental policy in an open economy 185

Campisi D, Gastaldi M: Decomposing growth in a multiregional I-O framework 409

Capello R, Nijkamp P: Information and communications networks in space 1

Capello R, Nijkamp P: Telecommunications technologies and regional development: theoretical considerations and empirical evidence 7

Chen H-P: The simulation of a proposed nonlinear dynamic urban growth model 305

Coffey WJ → Bailly AS

Denton FT, Feaver CH, Mountain DC, Robb AL, Spencer BG: Industry-region load profiles: econometric estimation based on marginal totals 223

Echeverri-Carroll EL: Flexible production, electronic linkages, and large firms: evidence from the automobile industry 135

Emmerink RHM, Verhoef ET, Nijkamp P, Rietveld P: Endogenising demand for information in road transport 201

Englin J: Estimating the amenity value of rainfall 273

Feaver CH → Denton FT

Frenkel A, Shefer D: Modeling regional innovativeness and innovation 31

Gastaldi M → Campisi D

Gazel RC: Free trade agreements and interregional labor migration: the case of the U.S. and Canada 373

Getis A → Griffin P

Gibson LJ → Bailly AS

Gillespie A → Richardson R

Griffin P, Getis A, Griffin E: Regional patterns of affirmative action compliance costs 321

Griffin E → Griffin P

Haddad E → Sonis M

Haynes KE → Sarafoglou N

Hewings GJD → Sonis M

Hsing Y: An empirical estimation of regional production functions for the U.S. manufacturing industry 351

Miller JR: What is western about western regional science? 343

Mountain DC → Denton FT

Nijkamp P → Capello R

Nijkamp P → Emmerink RHM

Nijkamp P, Pepping G: The relevance and use of information and telecommunication networks as strategic tools in the transport sector: a Dutch case study 111

Peng S-K: The location of governmental facilities and equilibrium urban configuration 247

Pepping G → Nijkamp P

Poot J: Information, communication and networks in international migration systems 55

Richardson R, Gillespie A: Advanced communications and employment creation in rural and peripheral regions: a case study of the Highlands and Islands of Scotland 91

Rietveld P → Emmerink RHM

Robb AL → Denton FT

Salomon I: Telecommunications, cities and technological opportunism 75

Sarafoglou N, Haynes KE: University productivity in Sweden: a demonstration and explanatory analysis for economics and business programs 285

Shefer D → Frenkel A

Sonis M, Hewings GJD, Haddad E: A typology of propagation of changes on the structure of a multiregional economic system: the case of the European Union, 1975–1985 391

Spencer BG → Denton FT

Verhoef ET → Emmerink RHM

Walz U: Long-run effects of regional policy in an economic union 165

Yang H: A spatial price equilibrium model with congestion effects 359
